Work experience

- Aug 2022 – present **PJSC Sberbank**, intern Data Engineer developer. Moscow, Russia.
 - Working with a large array of data (analysis, structuring, processing) using Pyspark, Python
 - Development of services for processing unstructured data, automating the creation of features to identify fraudulent transactions.
 - Participation in the development of analytical products based on the results of the analysis of large amounts of information.
- July 2022 – present **Higher School of Economics University**, researcher at the International Bioinformatics Laboratory. Moscow, Russia.
 - Research of the possibility of using and interpreting neural networks to solve the problem of recognizing secondary DNA structures.
- Apr 2022 – July 2022 **Higher School of Economics University**, teacher assistant in Introduction to Data Science. Moscow, Russia.
 - Prepare seminars materials and home works, check students' works, answer both theoretical and practical machine learning, programming questions, which help students more efficiently assimilate information.

Education

- 2019 – present **Bachelor degree**, Higher School of Economics. Moscow, Russia.
 - Faculty of Computer Science, Applied Mathematics and Informatics.
- 2008 – 2019 **School**, Educational complex of the author's physics and mathematics school lyceum №61, Bishkek, Kyrgyzstan.

Skills

- **Machine learning**
Catboost, Xgboost, Numpy, Matplotlib, Sklearn, Seaborn

- **Deep learning**
Pytorch
CNN, RNN
- **Work with data**
Pyspark, SQL, Pandas
- **Recommender system**
User2User, LFM, ALS
- **NLP**
Transformers, Gensim Word2Vec
- **Programming**
Python, C/C++
- **Backend**
Flask
- **Technical English**

Languages

- **Russian**
Native speaker
- **English**
Intermediate

Interests

- **Sport**
Swimming
